(Including 7 regular outlets)
- Tel/Modem/Fax/Internet surge suppression
- Compact Size, easy to install
- Site wiring fault indicator
- Protection enabling indicator
- Master On/Off switch for master control

Complete Power Solution™

ISO 9001 Certified Company

Specification

Model	Strip Pro	
Maximum Energy Dissipation	560 Joules (10 / 1000µs)	
Clamping Voltage	330 V	
Maximum Peak Current	40000 Amps (8 / 20µs)	
3 AC Lines protected	H-N LINE	20000 Amps (8 / 20µs)
	H-G LINE	10000 Amps (8 / 20µs)
	N-G LINE	10000 Amps (8 / 20µs)
Electrical Rating	125V / 60 Hz, 15A 1875 watts Continuous Duty	
Phone Line	48 Joules (10 / 1000µs)	
Circuit Breaker	Resettable 15 Amps	
Weight	570 g	
Dimensions (L x W x H)	310 x 72 x 45 mm	

- Compact, light-weight state of the art design

Makes the Strip Pro a true versatile surge protector for home/office use.

- Innovative wide input voltage (100-130 Vac)

Electrical design allows the Strip Pro to operate in most countries.

- Excess Current Detection

Warns you against potential modem damage caused by excess current on many phone lines.
(Excess current is often associated with digital lines).

- Protection Working Indicator

Warns you if Strip Pro's circuitry is activated and ever damaged.
