- Compact, light-weight state of the art design

Makes the Desk Pro a true versatile surge protector for home/office use.

- Innovative wide-voltage (100-130 Vac)

Electrical design Allows the Desk Pro to operate in most countries.

- Excess Current Detection

Warns you against potential modem damage caused by excess current on many phone lines. (Excess current is often associated with digital lines).

- Protection Working Indicator

Warns you if Desk Pro's circuitry is activated and ever damaged.
